REPORT OF A. A. RICHARDSON  
CHIEF GAME WARDEN

---

Fiscal Year, July 1, 1935—June 30, 1936

---

*Honorable Olin D. Johnston, Governor, and the Members of the  
General Assembly of South Carolina.*

Gentlemen: I herewith submit to you statement of the South Carolina Game and Fish Department for the fiscal year July 1, 1935, through June 30, 1936, and respectfully report to you conditions throughout the State as I find them and a few recommendations which, in my opinion, will better conditions of this department and also increase the game and fish of the State.

Due to good roads, automobiles and motor boats, people hunt and fish now who never did so before. Our wild life cannot stand the ravages of their natural enemies and of man under present improved conditions. Our season on game are entirely too long and should be shortened. From all of the information that I can gather, South Carolina has the longest open season for hunting of any State in the Union, and is one of the few States that has no closed season whatsoever on fish during their spawning season. We protect our birds and animals during their breeding season and we should protect the fish during their breeding season, if we expect to have any fish for future generations. It is preposterous to believe that we can keep on taking the fish from our streams during the breeding season and not protect them whatsoever at that time, if we expect to have fish in abundance, as we have had heretofore.

The United States Government has spent in labor and cash donations, through the efforts of the South Carolina Game and Fish Department and the Bureau of Fisheries at Washington, a total of \$524,000.00 in South Carolina on the erection of State and Federal Fish Hatcheries, from which it is estimated that between eleven and twelve million fish per year will eventually be liberated in the streams, ponds and lakes of the State. The Government has built these hatcheries for the State under the impression that the State will maintain them. Up to date the State has maintained them most satisfactorily, but the cost in doing so has been borne entirely by the people who buy hunting licenses. For many years I have advocated a reasonable fishing

license, from which the revenue can be used for propagation and protection of fish and, at this session of the Legislature, a Bill will be introduced along this line. The Bill will be so drawn as not to include the people of ordinary means who fish with pole and hook and line, but will only include the class of sportsmen using rod and reel and artificial bait. These people are able to pay a reasonable license and are desirous of doing so, provided their money will be used to give them more fish in the future. It will be almost impossible to properly maintain the fish hatcheries that the Government has built for the State unless we do have a fishing license to raise revenue for this purpose.

I am submitting to you, further on in this report, a more detailed statement concerning the State and County Fish Hatcheries. I ask that you give your earnest consideration to the Bill that will be introduced for the purpose of properly maintaining these hatcheries and guaranteeing to the future generations the sport and food supply of fish that their ancestors enjoyed.

The Bill that will be introduced is endorsed by the Fish, Game and Forestry Committee, the State Game and Fish Department, the State Game and Fish Commission and the South Carolina Fish and Game Association.

#### GROWTH OF STATE GAME DEPARTMENT SINCE 1913

Year	Total Business
1912 .....	\$ 1,956.00
1913 .....	4,430.13
1914 .....	7,558.20
1915 .....	19,829.61
1916 .....	30,593.80
1917-1918 (Fiscal year changed July 1st—June 30th) .....	34,782.92
1918-1919 .....	42,140.15
1919-1920 .....	110,550.10
1920-1921 .....	113,225.19
1921-1922 .....	113,624.15
1922-1923 .....	106,345.80
1923-1924 .....	149,208.35
1924-1925 .....	145,031.05
1925-1926 .....	149,497.53

1926-1927 .....	140,112.84
1927-1928 .....	202,120.07
1928-1929 .....	170,403.75
1929-1930 .....	196,766.46
1930-1931 .....	177,008.40
1931-1932 .....	137,498.80
1932-1933 .....	112,165.72
1933-1934 .....	145,093.75
1934-1935 .....	139,079.34
1935-1936 .....	150,882.40

---

\$2,599,904.51

These figures will be verified by the State Treasurer's Books.

Not one penny of the above mentioned collections was paid by any tax-payer, and no appropriation of any nature has been made from the tax-payers money for the upkeep, maintenance and operation of the State Game Department—from the Chief Game Warden's salary down to the smallest item on our books. I, therefore, feel that the Legislature can afford to be most liberal with this department, as it is absolutely self-sustaining.

Very respectfully,

A. A. RICHARDSON,

Chief Game Warden.

## REASONS ADVANCED FOR PASSAGE OF ANGLER'S LICENSE BILL

### FISH, GAME AND FORESTRY COMMITTEE: A BILL TO REQUIRE ANGLERS LICENSES IN THIS STATE

1. Under the provisions of this bill only persons who fish in the fresh waters by the use of a fly rod, casting rod, artificial bait or any manufactured tackle or equipment, other than ordinary hook and line, will be required to have a license. This will not effect the people of ordinary means, will not effect women and children, country people and the mill people whose method of fishing is with ordinary hook and line, but will effect the ardent sportsmen whose chief recreation is fishing with fly rod, casting rod and artificial bait, and this class of people is able to buy expensive paraphernalia and perfectly willing to pay a resonable fishing license if they are assured the revenue will be used to give them more fish and better fishing in the future and the provisions of this bill provide that the revenue be used solely for fish protection and propagation.

2. The license is reasonable and under the provisions of Section 2 a person who both hunts and fishes could buy a combination license good to hunt or fish for one-third more than the present cost of the hunting license.

3. From the attached statement it will be seen that the United States Government, through its different Federal Agencies, is spending in South Carolina a total of \$524,000.00 for fish hatcheries: eleven to be hereafter maintained by the State and two Federal owned hatcheries to be maintained by the government. The government having established these county and State fish hatcheries for us, it now becomes necessary for the State or County to maintain the hatchery and, in order to do this, the fishermen should be reasonably taxed in order to secure more fish and better fishing in future years. Heretofore the fisherman has paid no revenue into the State whatever; the hunter has been carrying the fisherman's load for the last fifteen or twenty years.

4. The passage of this Bill will furnish fish for everybody and be paid for by the class of sportsmen who are able and willing to pay a license in order to get more fish and better protection.

5. This Bill is endorsed by Fish, Game and Forestry Committee, State Fish and Game Department, State Fish and Game Commission, South Carolina Fish and Game Association.
